Donna,
To start off with, I would like to say it has been nice going to school with you this year. After all the trouble I'm glad we finally became best buddies! I've said this many times before, but once again I'd like to say, you're the best friend I've ever had. We've had our ups & downs as you have said but it has held out. I guess that's true friendship. We've had many good times together and a few bad. But I hope the bad are over. In the near future, I hope we can have even more fun than we've had already and that's a good bit!
The times we've shared have been many and it seems those times we were with very special people. The future holds a lot for you and I'm sure it's a good one. In life, I've searched for a friend with good qualities or characteristics. You seem to be one of the few I've found with good traits. You've got a great personality and a very understanding person, maybe that's why it's so easy to get along with you, but anyway you're my best friend and will be forever. I want to wish you all the luck in the world with everything and I also hope you get the best life has to offer. Love Ya,
Rhonda

Dedication

Mr. T. Edward Davis

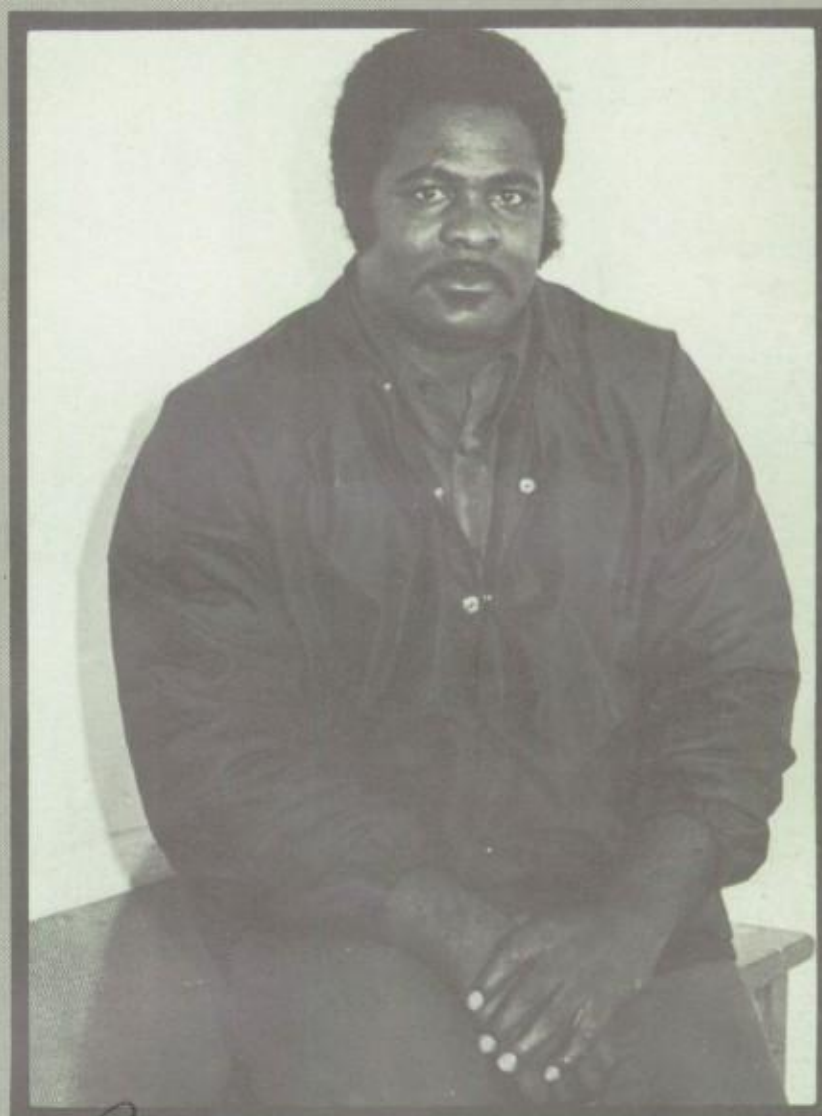

The annual staff wishes to dedicate the 1977 "Chief" to Mr. T. Edward Davis.

We hope that in this small way we may repay him for all he has given us through the years. For the wisdom, concern, and understanding with which he has guided us, we say, "Thank you."

Students Speak Out

Matilda Davis

Questions:

Now that you are finally a Senior, tell us what school has meant to you these past 12 years?

Answer:

Well, to start off with, if I had not gone to school, where would I be today? I've learned how to make friends with the black and white students alike and most of all how to get along with teachers. I am always going to remember the sweet old days at Courtland High School.

JoAnn Reding Brackin

Question:

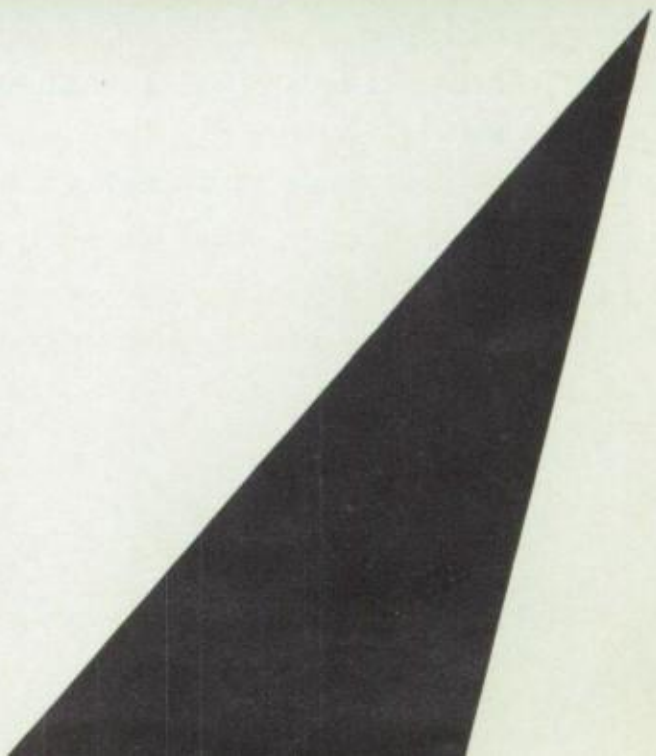

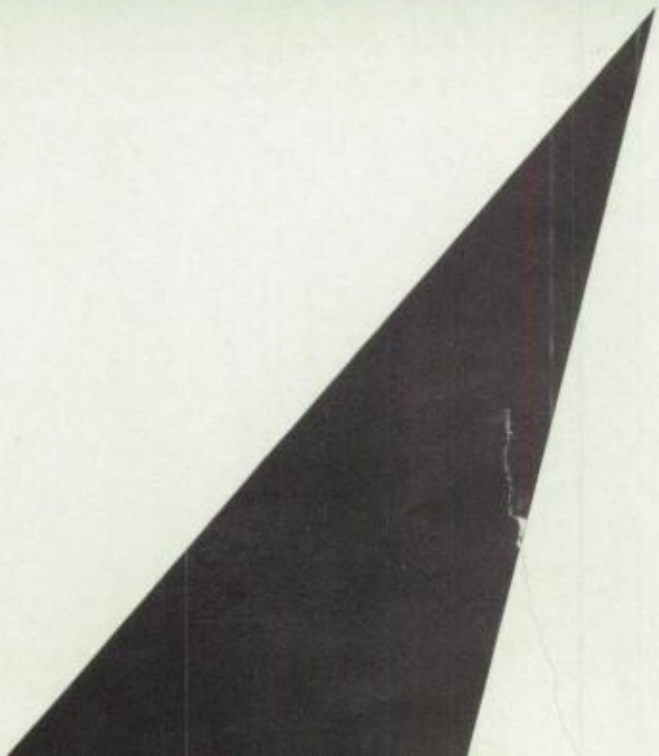

Since you are a married student, how do you do your school work and take care of your home also?

Answer:

I try to cook when I get home after school. After I cook, I clean the house and then I try to study while I am watching T.V. If I don't study then, I study before I go to bed.

This year the Junior Class has been very busy sponsoring a variety of fund-raising projects. They have held orange, candy, poster, and Christmas candle sales campaigns. All proceeds went to the sponsorship of the annual Junior-Senior Prom. Big plans were underway for the event to be held on April 1, 1977, at the Joe Wheeler Lodge. This is always a gala affair, thanks to the hardworking Juniors.

What's Your Opinion?

Donna Coffey

Question:

What does it mean to you to be the drum majorette of the Courtland High Band and in what ways do you think our band could be improved?

Answer:

It means a lot of time and hard work, during and after school. It means meeting new people and getting to know them. It gives me a great morale to meet new people. Most important it gives me a special feeling of pride knowing I can lead our band. I really think our band could improve alot more if more students got involved it could be the most fascinating band around, which I think it already is!

Patricia Deloney

Question:

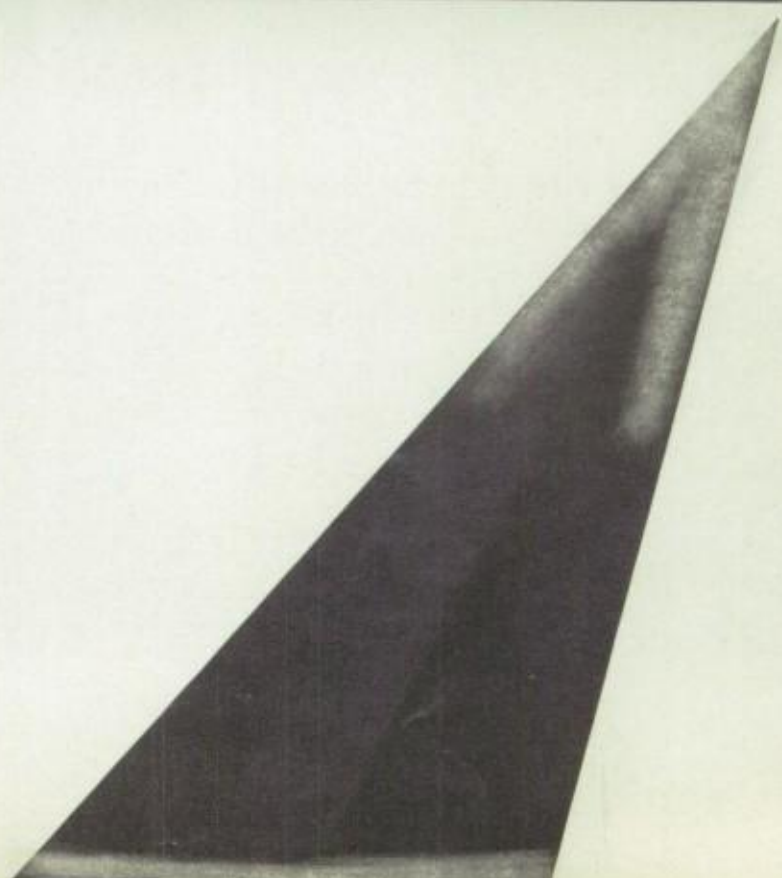

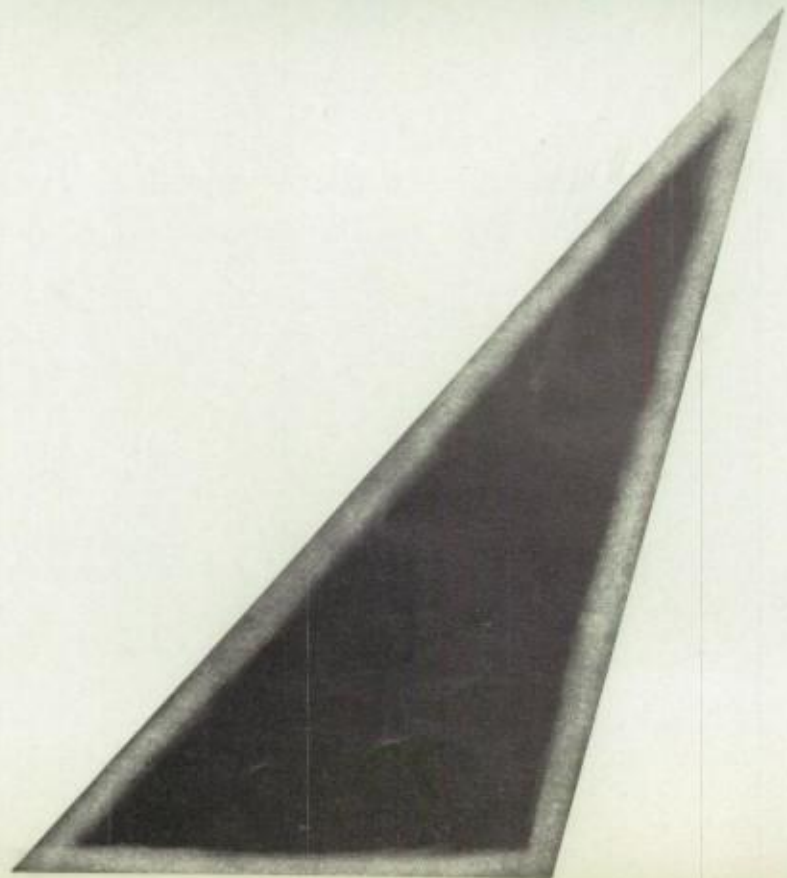

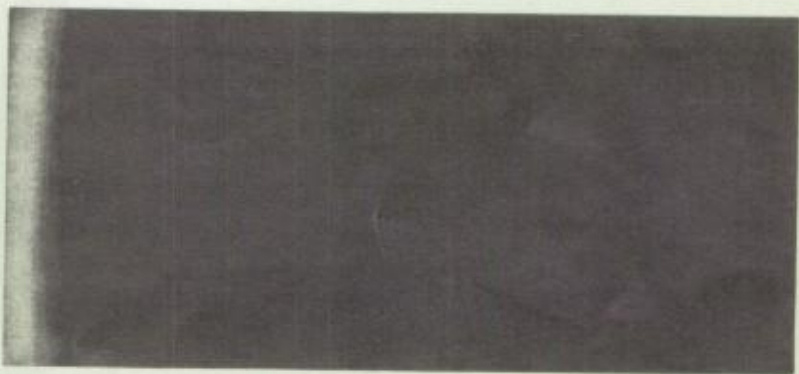

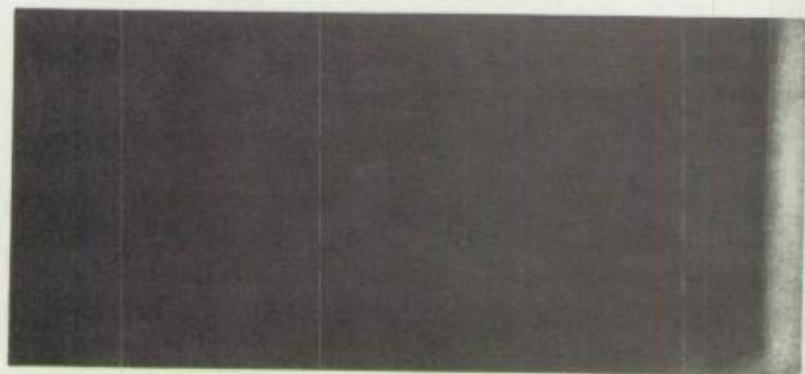

In your opinion do you think schools should be integrated such as Courtland High or do you feel blacks and whites should be in separate schools?

Answer:

I personally have nothing against the integration system, but I don't feel that blacks should be forced to go with the whites or vice versa. I feel integration is to an extent an advantage, because it's helping the students to get along with others not with just the ones of their own race. In answering this question another comes into mind, "Why should the Blacks and Whites be separated?"

A Penny for Your Thoughts

Jeff Williams

Question:

In what ways do you think America will be different in the year 2000?

Answer:

I think the year 2000 is going to be a life of easy living and a very complicated life of pushing buttons. I believe the world problems of food will be solved. I think a cure for most of the major diseases and cancer will be discovered and the gasoline we now know will be considered as gold is today.

Vera Watkins

Question:

You are 16, when you reach the age 18, do you think you will have more freedom then, to come and go as you please than you do now?

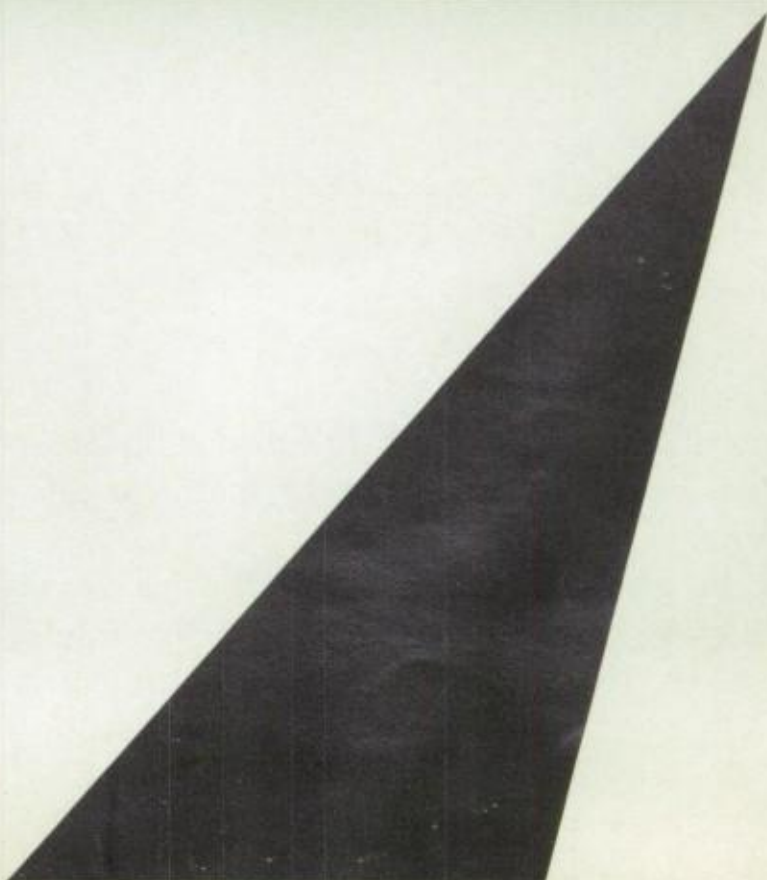

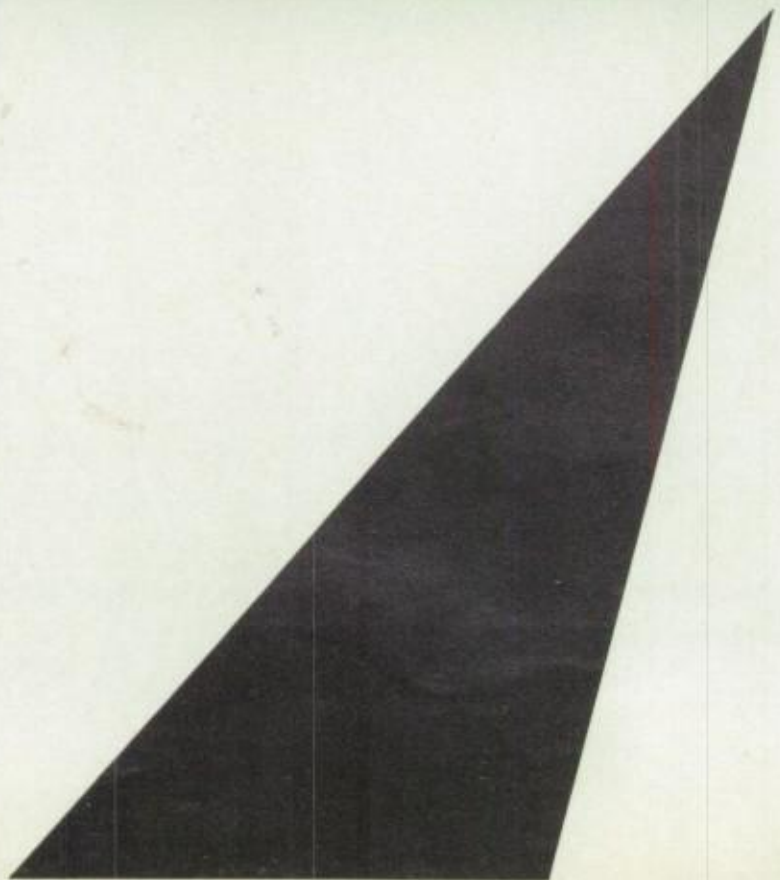

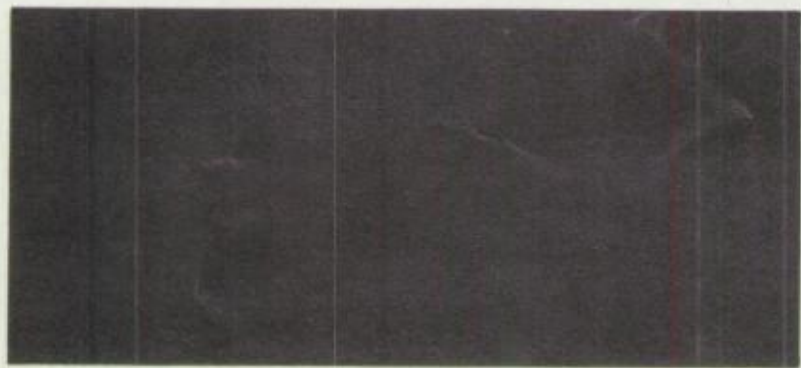

Answer:

Yes, because when I am 18 I hope to be in college, away from home so the things I do will be my own decision.

It is the ambition of most people to leave some footprints on the sands of time. We can name many great ones whose fame shall endure as long as man remains on this planet, for their lives have contributed much to the benefit of their fellowmen.

We can't all be great and famous, but all of us can use what time and talents we have in the best way we can to help others and make them happy. This is to leave shining footprints for someone to follow.

Question:

This is your first year at Courtland High, in what ways is it different from the elementary and junior high school?

Answer:

My first year at Courtland High is different from elementary in many ways and in some ways it is much the same. In elementary you don't have as much freedom as you do in high school. Like at break you always had to be in a certain place, in high school you go where you want. Another thing is that there are a lot more activities to go to in high school than there is in elementary. But in one way it's much the same, there are still the teachers and still the work to do.

Dana Reding

Don Hutto

Question:

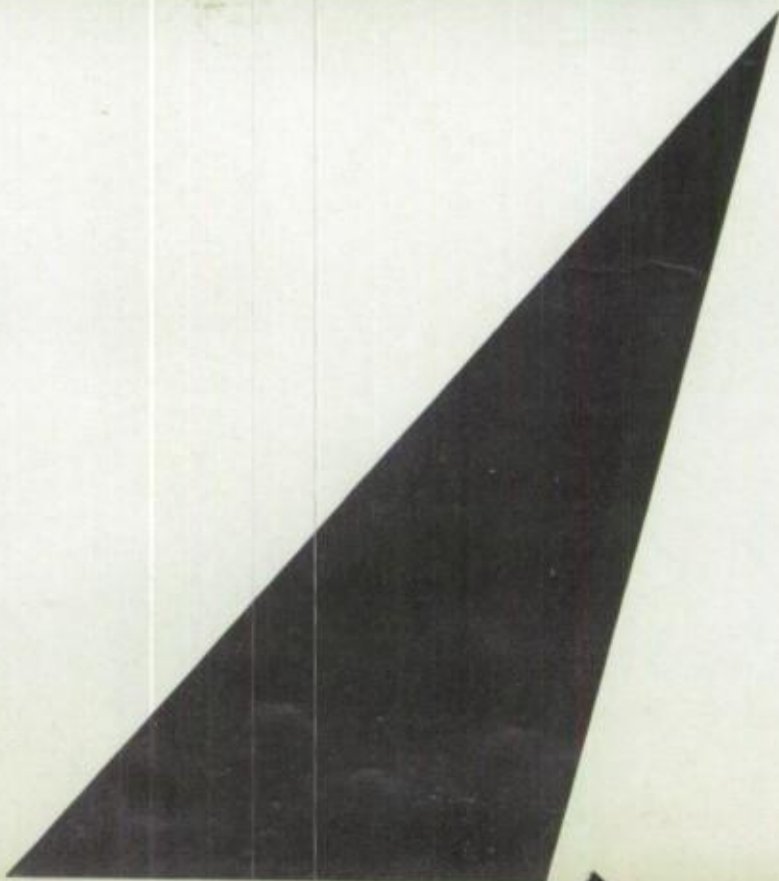

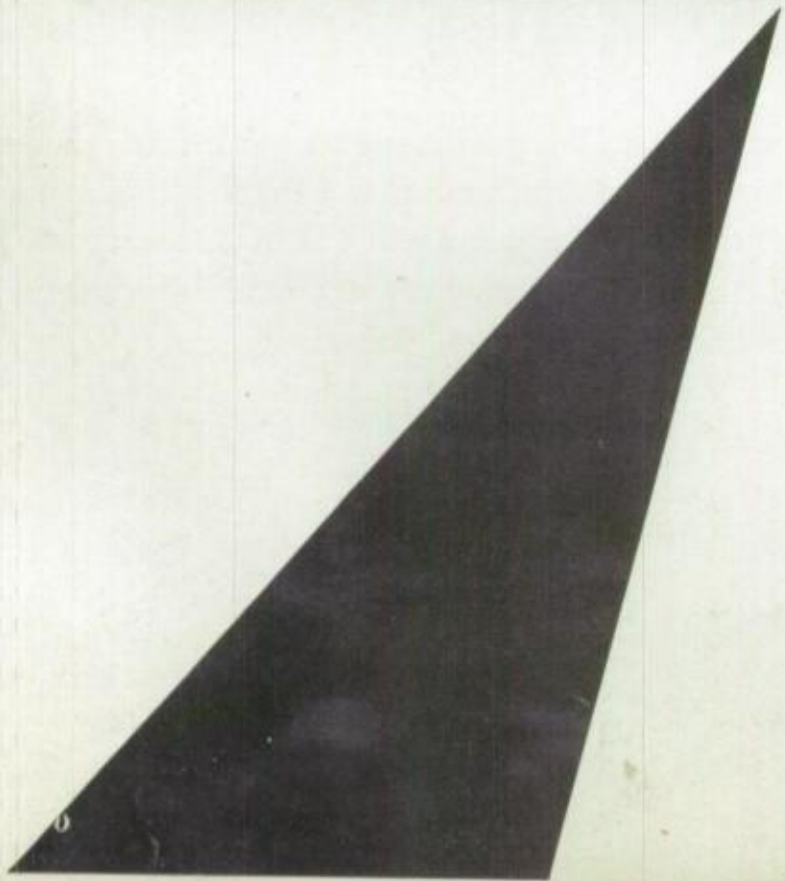

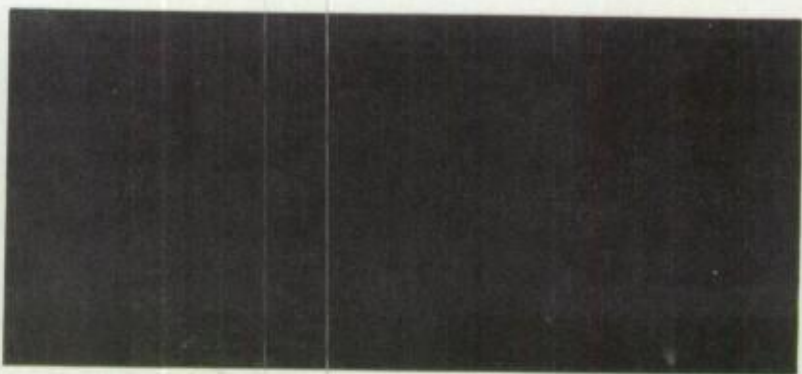

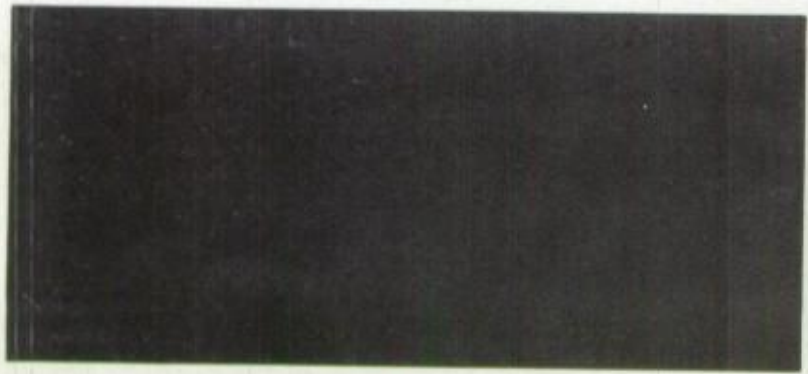

If you had to make one change in this school what would it be?

Answer:

If I had to make one change it would be in the teachers attitude toward the students. I think all students should be treated equal. Be as helpful to one as the other; be as kind to one as the other; and speak no unkind words as to hurt no one's pride.

Even though we have our ups and downs, you're still my buddy!! I have to admit you're one of the craziest and dumbest ladies I've ever known. Donna, I really do like you alot, I know I do things to make you mad and believe me, you do and say things to make me mad, but they never really amount to much. So just remember all the good times we've had together, and are gonna have together in the near future. Always remember "76" Study Hall... who was in it and all the fun we had with them. Also all the times we locked "Peanut Butter" in the closet! ^{HA!}_{HA!} Remember your 16th Birthday party and all the other fun we've had. (There's been so much I can't write it all.) Forget the bad times, and believe me there's been plenty of them, too.

Always stay cool & stay out of trouble. I hope you have good luck in the future with "your special man" and all the other guys.

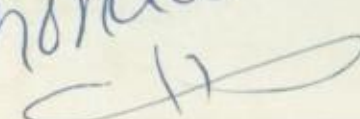

In the future if we may separate someway, we'll have to keep in touch, because you're too good of a friend to forget.

I'll always remember all the times we gave these teachers and all the times we got sent to the office. May God Bless You. Be Sweet & Stay Cool. Love ya!

"Pisces" Betty Ann Hitt Senior 79 C.H.S.

Doug,

You're one of the craziest but nicest guys I've ever known. Also one of the cutest. You're a very special person in my life now, even though sometimes I make you feel like you're not. We've had our disagreements but in the end, everything worked out. I don't think we would get along if it wasn't for our little ups & downs. We shared a lot of good times together and I hope there are many more to come. I know we've had a lot of bad times, too, but I hope we can put them behind us and carry on from here. Remember all the times I came home with Donna just to get to see you. There was one time I hope you never forget, the night of the Prom. It was really great. At first I didn't think things would work out because of Dayle & Beth, but they did and I'm really glad they did. I don't really understand how we ever got together because we really use to hate each other. I really never hated you, I just didn't care for being around you. We never use to speak to each other and even smile, but now it's a different story. We spend a lot of our time laughing and talking or maybe fussing. Remember last Saturday when we went riding around because we didn't know what else to do. Well, there has been many things to remember especially the times we were together. I'm glad you respect me as much as you do. Now days, there are ^(few) guys left that know how to treat a young lady like one. I want to wish you good luck in everything and I hope you accomplish what you want out of life.

I love you!

To: Donna, a very sweet and intelligent young lady (although you are who you are) I'm very glad me and you got to be such very good friends. All my kids live been going to school, live seem to have found me a very good white friend but I always seem to lose them, they always leave and go to another school or something. Donna I hope it doesn't happen this time because I've seen it have become very fun of you. So this time don't let it happen to me, I don't want to lose my good friend this time. Mamma,

It has been fun knowing you these past
two years, even though we haven't been good
friends both years. We did have a lot of
fun both years, but especially this year, I
wish we hadn't had so much trouble last
year, we could've had a lot more fun, but there
will be other times. I want to wish you all
the luck in the world (you'll ^{ha!} need it ^{ha!}). I hope you and
your "main man" get it together one of these
days, but you're doing alright now. Someone
like you always succeed in life, so I'm
sure you will, because you have a really
good personality, you act crazy all
the time. I'm not so sure about your looks,
maybe you need to have plastic surgery. ^{lol}
I was only kidding about that part, you
just fine, the way you are. I hope
someday, we could become better friends
and get to know each other a lot better,
I think we could get along pretty good if
it wouldn't for some of the people in Courtland.
Best of luck in the future with all the
guys especially you know who!

It's been fun knowing you these past two years. It's also been fun going to school with you. Remember all the good times we've had, especially 76's study hall. We've also had our bad times, like last year when we would jump on you almost every day. But, you can forget about all that if you want to. Don't forget on special men. (How could you?)
